IT'S ABOUT REAL-TIME

## FEATURING

### TCO-5808

This product was designed with the harshest environments in mind and is not susceptible to interference from 2.4GHz 802.11 b/g networks. Featuring 8 user selectable channels and rugged IP-67 all-weather enclosures, this system is ideal for applications that demand high resolution and real-time video surveillance and monitoring.

### DT-900

The 900MHz DT-900 data radios transmit license free wireless PTZ controls and other data sources up to 7 miles where trenching cable may not be possible, convenient or economical. Designed to have the greatest compatibility with all major pan-tilt-zoom camera manufacturers. The DT-900 configuration software allows the user to easily configure the system to minimize installation time and maximize results in the most demanding applications.

### MXR-5842

The innovative MXR-5842 Kit sends video from locations normally not possible, convenient or economical with the industries smallest 5.8GHz wireless 8 channel user selectable, color camera system. The system includes a wireless receiver, AA battery pack holder, universal mounting bracket and power supplies.

### TC-5808

Plug & Play out of the box, the low profile desktop design is not susceptible to interference from 802.11 b/g networks. Featuring 8 user selectable channels. This system is perfect for applications ranging from surveillance to remote monitoring.

**WIRELESS VIDEO**

Has created a revolution in security surveillance relieving the costs associated with running wires over long distances or difficult to reach locations. It offers new opportunities to protect lives, property and assets, in ways that were impractical until now. Wireless video is reliable and remarkably affordable and is ready to meet almost any CCTV application you can imagine.

VideoComm Technologies is the recognized market leader in **Real-Time** wireless video transmission technologies, products and technical support. From systems serving a single camera over a few feet, up to multi-camera systems covering large university campuses. Our wireless video products overcome many of the installation limits applicable to most CCTV projects.

**COST**

VideoComm products eliminate the need to run wires. We offer video transmission solutions that give installers the advantage of saving thousands of dollars in wire, conduit, labor, under-ground trenching, suspended race ways or dedicated phone lines.

**FREEDOM**

VideoComm manufactures products for CCTV applications that have been physically impossible to serve before now. We specialize in wireless video applications capable of using alternate power sources while also providing complete camera mobility during transmission – including products for temporary monitoring, mobile surveillance and covert investigations.

**SIZE**

VideoComm is the industry leader in the manufacturing of micro wireless video products. We offer the smallest UHF, 900MHz, 2.4GHz and 5.8GHz video transmitters commercially available on the market today.

**DISTANCE**

VideoComm manufactures a full range of indoor and outdoor all-weather products that can transmit video signals economically anywhere from a few hundred feet (through walls), up to remote monitoring sites 50 miles away.

**COMPLETE SOLUTIONS**

More than products, VideoComm Technologies is a wireless video solutions provider. Since 1996 we have offered an extensive range of leading-edge technologies, quality manufacturing, product engineering and application knowledge. With a diverse range of product frequencies, transmitter sizes and capabilities, we can offer a solution to almost any wireless video scenario. Not all wireless applications are created equal, we have solutions.

## ***FREQUENCY PERFORMANCE COMPARISON***

VideoComm Technologies is the industry leading manufacturer of a broad spectrum of Real-Time wireless video products. We offer devices in a variety of sizes, configurations and power levels for frequencies ranging from UHF, 900MHz, 1.2GHz, 2.4GHz and 5.8GHz, to satisfy the most demanding CCTV applications.

Choice of operating frequency in any application is dependant on a number of different performance factors. From the chart below, select which frequency category will perform best for your specific wireless application requirement.

<b><i>FEATURES</i></b>	<b><i>5.8 GHz</i></b>	<b><i>2.4 GHz</i></b>	<b><i>1.2 GHz</i></b>	<b><i>900 MHz</i></b>	<b><i>UHF</i></b>

## TCO-5808R6

Designed with the harshest environments in mind, the robust TCO-5808R6 series delivers high resolution, Real-Time video **up to 2,000 feet** line of sight. Its rugged IP-67 all weather enclosure transmits in applications where trenching cable may not be possible, convenient or economical.

### ADVANTAGES

- Easy to install and operate
- Delivers high resolution Real-Time video
- Not susceptible to interference from 2.4GHz 802.11 b/g networks
- Unique embedded transmitter and receiver antenna system
- 8 user selectable channels
- Range up to 2,000 feet line of sight
- Rugged all weather IP-67 protective enclosure
- Perfect for commercial, industrial, scientific, law enforcement and government video security applications

**APPLICATIONS INCLUDE**

**FREEWAYS**

**PARKING LOTS**

**AIRPORTS**

**CONSTRUCTION SITES**

**MARINAS**

**INDUSTRIAL**

**SPECIFICATIONS**

OPERATING FREQUENCY	5.725GHz – 5.875GHz; 8 User Selectable Channels
RADIATED POWER	50mV/m @ 3m
RANGE (LINE-OF-SIGHT)	<b>Up to 2,000 Feet</b>
TRANSMITTER ANTENNA TYPE	3dB Internal Fixed Directional Patch
RECEIVER ANTENNA TYPE	7dB Internal Removable Directional Patch
RECEIVER SENSITIVITY	-84 dBm
VIDEO FORMAT	NTSC or PAL
VIDEO CONNECTOR	BNC Female @ 75 Ohms 1 Volt P-P
AUDIO CONNECTOR	One Left and One Right BNC Female @ 600 Ohms 1 Volt P-P
TEMPERATURE RANGE	-40°F to +170°F
POWER SUPPLY INCLUDED	9 – 14 VDC Polarity Protected
CURRENT CONSUMPTION	Transmitter: 230 mA @ 12 VDC Receiver: 330 mA @ 12 VDC
DIMENSIONS	7.0" x 7.0" x 4.5"
MOUNTING BRACKETS	Included – Universal Wall / Pole Mount
WEIGHT	0.9 kg or 32 oz each
FCC / IC / CE APPROVED	Yes

**KIT INCLUDES**

- ALL WEATHER TRANSMITTER
- ALL WEATHER RECEIVER
- OPERATING INSTRUCTIONS
- TWO 12VDC POWER SUPPLIES
- UNIVERSAL MOUNTING BRACKETS
- ONE YEAR LIMITED WARRANTY

**5.8GHz**

5.8GHZ

## TCO-5808Q4

Designed with the harshest environments in mind, the robust TCO-5808Q4 series delivers high resolution, Real-Time video **up to one mile** line of sight. Its rugged IP-67 all weather enclosure transmits in applications where trenching cable may not be possible, convenient or economical.

*One Mile Range*

### ADVANTAGES

- Easy to install and operate
- Delivers high resolution Real-Time video
- Not susceptible to interference from 2.4GHz 802.11 b/g networks
- Unique embedded transmitter and receiver antenna system
- 8 user selectable channels
- Range up to One Mile line of sight
- Rugged all weather IP-67 protective enclosure
- Perfect for commercial, industrial, scientific, law enforcement and government video security applications

## APPLICATIONS INCLUDE

**FREEWAYS**

**PARKING LOTS**

**AIRPORTS**

## TCO-5808Q9

Designed with the harshest environments in mind, the robust TCO-5808Q9 series delivers high resolution, Real-Time video **up to 4 miles** line of sight. Its rugged IP-67 all weather enclosure transmits in applications where trenching cable may not be possible, convenient or economical.

*Four Mile Range*

### ADVANTAGES

- Easy to install and operate
- Delivers high resolution Real-Time video
- Not susceptible to interference from 2.4GHz 802.11 b/g networks
- Unique embedded transmitter and receiver antenna system
- 8 user selectable channels
- Range up to Four Miles line of sight
- Rugged all weather IP-67 protective enclosure
- Perfect for commercial, industrial, scientific, law enforcement and government video security applications

## TCO-5816R6

Designed with the harshest environments in mind, the robust TCO-5816R6 delivers high resolution, Real-Time video **up to 2,000 feet** line of sight. Its rugged IP-67 all weather enclosure transmits in applications where trenching cable may not be possible, convenient or economical. This unit includes a unique embedded video scrambling feature that provides an additional level of security and privacy.

### ADVANTAGES

- Easy to install and operate
- Delivers high resolution Real-Time video with a unique video scrambling feature
- Not susceptible to interference from 2.4GHz 802.11 b/g networks
- Unique embedded transmitter and receiver antenna system
- 16 user selectable channels - 32 channels optional
- Range up to 2,000 feet line of sight
- Rugged all weather IP-67 protective enclosure
- Perfect for commercial, industrial, scientific, law enforcement and government video security applications

## TC-5808

Plug & Play out of the box, the low profile desktop design is not susceptible to interference from 2.4GHz 802.11 b/g networks and data devices. Featuring 8 user selectable channels, this system is the ideal choice when multiple indoor wireless video links are required for any commercial, industrial or consumer applications **up to 1,000 feet** line of sight.

### ADVANTAGES

- 8 user selectable channels
- Low profile metal case desktop design with convenient slots for permanent mounting
- Stereo audio transmission capable
- Convenient front panel frequency selection, video gain adjustment, power indicator & switch
- Not susceptible to interference from 2.4GHz 802.11 b/g data devices
- Operating voltage from 8.0 to 32 Volts DC with 90% + efficient, low noise switching voltage regulators
- Ideal solution for portable, temporary and covert surveillance or monitoring applications
- One Year Limited Warranty

## MXR-5847VF

The innovative MXR-5847VF Kit sends video from locations normally not possible, convenient or economical with the industries smallest 5.8GHz wireless 8 channel user selectable, color varifocal camera system. The system includes a wireless 470 line high-resolution color CCD camera with varifocal lens, wireless receiver, AA battery pack holder and power supplies.

### ADVANTAGES

- Easy to use – "Plug & Play"
- 8 user selectable channels
- 470 line high resolution color CCD
- Not susceptible to interference from 2.4GHz 802.11 b/g networks
- Range up to 300 feet indoors, 1,000' line of sight
- Extremely low current consumption
- Perfect for office, warehouse or nursery
- Ideal for portable, temporary and covert surveillance or monitoring applications
- One Year Limited Warranty

## MX-5847VF

The innovative MX-5847VF sends video from locations normally not possible, convenient or economical with the industries smallest 5.8GHz wireless 8 channel user selectable, color varifocal camera system.

### ADVANTAGES

- 8 user selectable channels
- Incredibly sharp high resolution color picture
- Perfect for office, warehouse or nursery
- Ideal for portable, temporary and covert surveillance or monitoring applications
- Extremely low current consumption
- One Year Limited Warranty

### SPECIFICATIONS

OPERATING FREQUENCY	5.725GHz – 5.875GHz; 8 User Selectable Channels
RADIATED POWER	50mV/m @ 3m
RANGE (LINE-OF-SIGHT)	Up to 1,000 Feet
OPERATING DISTANCE INDOORS	Up to 300 Feet
ANTENNA TYPE	Fixed Omnidirectional
CAMERA TYPE	Color 1/3" Sharp CCD
RESOLUTION	470 TV Lines
LENS TYPE	Varifocal 4.0 – 9.0mm F 1.6 - minimum 1.0 Lux
TEMPERATURE RANGE	-22°F to +140°F
POWER SUPPLY INCLUDED	9 – 14 VDC Polarity Protected
CURRENT CONSUMPTION	Less than 150mA @ 12VDC
DIMENSIONS	1.4" x 2.9" x 3.9" with lens 2.14" without
WEIGHT	80g or 2.8 oz
FCC / IC / CE APPROVED	Yes

### KIT INCLUDES

- WIRELESS CAMERA
- MOUNTING BRACKET
- TWO POWER INPUT JUMPER CABLES
- AA BATTERY PACK HOLDER
- 12 VDC POWER SUPPLY
- ONE YEAR LIMITED WARRANTY

Wireless Color Camera

The innovative MX-5842 color & black & white sends video from locations normally not possible, convenient or economical with the industries smallest 5.8GHz wireless 8 channel user selectable, color & black & white pinhole camera system.

### ADVANTAGES

- 8 user selectable channels
- Incredibly sharp high resolution color or black & white picture
- Perfect for office, warehouse or nursery
- Ideal for portable, temporary and covert surveillance or monitoring applications
- Extremely low current consumption
- One Year Limited Warranty

### SPECIFICATIONS

OPERATING FREQUENCY	5.725GHz – 5.875GHz; 8 User Selectable Channels
RANGE (LINE-OF-SIGHT)	<b>Up to 1,000 Feet</b>
OPERATING DISTANCE INDOORS	Up to 300 Feet
ANTENNA TYPE	Fixed Omnidirectional
MODEL # MX-5842C	Color $\frac{1}{3}$ " Sharp CCD - minimum 1.0 Lux
MODEL # MX-5842BW	B&W $\frac{1}{3}$ " Sharp CCD - minimum 0.05 Lux
RESOLUTION	420 TV Lines
LENS TYPE	3.7mm Pinhole Cone
TEMPERATURE RANGE	-22°F to +140°F
POWER SUPPLY INCLUDED	9 – 14 VDC Polarity Protected
CURRENT CONSUMPTION	Less than 150mA @ 12VDC
DIMENSIONS	1.4" x 2.9" x 2.2" with lens
WEIGHT	80g or 2.8 oz
FCC / IC / CE APPROVED	Yes

### KIT INCLUDES

- WIRELESS CAMERA
- MOUNTING BRACKET
- TWO POWER INPUT JUMPER CABLES
- AA BATTERY PACK HOLDER
- 12 VDC POWER SUPPLY
- ONE YEAR LIMITED WARRANTY

*Wireless Color Camera*

5.8GHz

5.8GHZ

## WXR-5810w

Dramatically increase range and improve performance with this 5.8GHz 1 Watt RF amplifier. Designed with law enforcement agencies in mind, the system boosts any 5.8GHz transmitter signal through multiple walls or obstacles and draws less than 380mA.

### 1 Watt Tx Amplifier

#### ADVANTAGES

- Low profile metal case design
- Rugged IP-65 all weather enclosure
- Extremely low current consumption
- Easy set up and operation

#### SPECIFICATIONS

OPERATING FREQUENCY	5.0GHz – 6.0GHz
OUTPUT POWER	1 Watt
IMPEDANCE	50 Ohms
INPUT VSWR	2:1
INPUT-OUTPUT CONNECTORS	SMA–Female
TEMPERATURE RANGE	-22°F to +140°F
POWER SUPPLY INCLUDED	12 – 28 VDC Polarity Protected
CURRENT CONSUMPTION	Less than 380mA @ 12VDC
DIMENSIONS	5.0" x 3.1" x 1.6"
WEIGHT	239g or 8.4 oz
FCC / IC / CE APPROVED	Export – Law Enforcement

#### KIT INCLUDES

- 1 WATT TRANSMITTER AMPLIFIER
- WEATHERPROOF 3-PIN DIN TYPE POWER CABLE
- SMA – MALE TO MALE JUMPER CABLE
- 12 VDC POWER SUPPLY
- ONE LIMITED WARRANTY

Operating in the unlicensed 5.8GHz ISM band, the smallest video transmitter available on the market sends real-time, high-resolution color video signals **up to 1,000 feet** line of sight. The TMX-5808 is the best choice for building into custom mini cameras or in applications where only a battery is possible. Perfect for medical, scientific, law enforcement and OEM solutions.

## ADVANTAGES

- 8 user selectable channels
- Smallest 5.8GHz video transmitter on the market
- Not susceptible to interference from 2.4GHz 802.11 b/g data devices
- Operating voltage from 8.0 – 32 VDC
- Ideal solution for portable, temporary and covert surveillance applications
- One Year Limited Warranty

## SPECIFICATIONS

OPERATING FREQUENCY	5.725GHz – 5.875GHz; 8 User Selectable Channels
RADIATED POWER	50mV/m @3m
RANGE ( LINE-OF-SIGHT)	Up to 1,000 Feet
INDOOR RANGE	Up to 300 Feet
ANTENNA TYPE	Fixed Omnidirectional
VIDEO FORMAT	NTSC or PAL
VIDEO CONNECTOR	2 Micro-Post Male Connectors @ 75 OHMS 1 Volt P-P
TEMPERATURE RANGE	-22°F to +150°F
OPERATING VOLTAGE	8.0 – 32 VDC – Polarity Protected
CURRENT CONSUMPTION	40 mA @ 12VDC – 90% + efficient
DIMENSIONS	31.7mm x 31.7mm x 10.5mm
WEIGHT	9.0g or 0.3 oz
FCC / IC / CE APPROVED	Yes

## KIT INCLUDES

- MINI 5.8GHz TRANSMITTER
- OMNIDIRECTIONAL WHIP ANTENNA
- 12 VDC POWER SUPPLY
- 2 MINI 9 VOLT BARREL JACKS
- OPERATING INSTRUCTIONS
- ONE YEAR LIMITED WARRANTY
- **REQUIRES OPTIONAL RECEIVER AND NOT INCLUDED**

**ANT-5808ip**

Manufactured from the highest quality materials to ensure superior electrical performance, mechanical durability and longevity. Meet your application demands by choosing this antenna to increase your signal strength and improve video quality.

**ADVANTAGES**

- Improve video quality and signal strength
- Unique design capable up to 110 degree tilt
- Magnetic mount base for quick deployment
- Convenient screw tab slots for permanent wall or ceiling mounting
- Two Year Limited Warranty

**Desktop Antenna****8dB DIRECTIONAL DESKTOP ANTENNA**

- Ideal for temporary or permanent indoor equipment applications
- Frequency range: 4.9 – 5.85GHz
- Impedance: 50 Ohms
- Beam Width: Horizontal 55 degrees  
Vertical 40 degrees
- Dimensions: 2.7" x 3.0" x 4.2"
- Fixed 18" low loss microwave cable with SMA-Male connector

**Side View****Wall Mount****Magnetic Mount**

Designed to connect to your VideoComm Technologies 5.8GHz video/audio receiver, this series of specialty antennas allows you to match the antenna to your specific application needs. Manufactured from the highest quality materials to ensure superior electrical performance, mechanical durability and longevity from the harsh elements of weather. Meet your application demands by choosing this antenna to increase your signal strength and improve video quality.

### ADVANTAGES

- Improve video quality and signal strength
- Increase transmission range
- All-Weather construction
- All Antennas – 50 Ohm Impedance
- Mounting brackets and hardware included
- "Plug & Play" and ready to install
- Two Year Limited Warranty

#### 8dB HIGH GAIN OMNIDIRECTIONAL ANTENNA

- Ideal for permanent, indoor and outdoor applications
- Frequency range: 5.2 – 5.9GHz
- Beam Width: Horizontal 360 degrees  
Vertical 12 degrees
- Dimensions: 0.8" x 15.6"
- Maximum 2.0" pole mount
- Includes 6 feet low loss microwave cable and mounting bracket

#### 17dB HIGH GAIN DIRECTIONAL ANTENNA

- Ideal for permanent, indoor and outdoor applications
- Frequency range: 5.2 – 5.9GHz
- Beam Width: Horizontal 25 degrees  
Vertical 25 degrees
- Dimensions: 9.75" x 1.75"
- Maximum 2.0" pole mount
- Includes 6 feet low loss microwave cable
- Includes unique tilting mounting bracket for adjusting vertical or horizontal polarization

#### 29dB HIGH GAIN PARABOLIC ANTENNA

- Ideal for permanent, indoor and outdoor applications
- Frequency range: 5.725 – 5.85GHz
- Beam Width: Horizontal 6 degrees  
Vertical 6 degrees
- Dimensions: 25.5" Diameter
- Maximum 3.0" pole mount
- Includes 6 feet low loss microwave cable
- Includes unique pan-tilt mounting bracket for adjusting vertical or horizontal polarization

Easy to install, the TCO-2415 series is a fully weatherproof 2.4GHz wireless video transmitter and receiver system that's ready to operate right out the box. Simply connect a power supply, video cable, aim and shoot. With a range **up to 1,500 feet**, this system is the best choice for short range wireless applications.

**1,500 Feet Range**

#### **ADVANTAGES**

- Easy to install and operate
- Delivers high resolution Real-Time video
- 4 user selectable channels
- Unique embedded transmitter and receiver antenna system
- Range up to 1,500 feet line of sight
- Perfect for commercial, industrial, scientific, law enforcement and government video security applications

**APPLICATIONS INCLUDE**

**SPECIFICATIONS**

OPERATING FREQUENCY	2.41GHz – 2.47GHz; 4 User Selectable Channels
RADIATED POWER	50mV/m @ 3m
RANGE (LINE-OF-SIGHT)	Up to 1,500 Feet
TRANSMITTER ANTENNA TYPE	3dB Internal Circular Directional Patch
RECEIVER ANTENNA TYPE	3dB Internal Circular Directional Patch
RECEIVER SENSITIVITY	-84 dBm
VIDEO FORMAT	NTSC or PAL
VIDEO CONNECTOR	BNC-Male @ 75 Ohms 1 Volt P-P
AUDIO CONNECTOR	One Left and One Right BNC-Male @ 600 Ohms 1 Volt P-P
TEMPERATURE RANGE	-30°F to +170°F
POWER SUPPLY INCLUDED	12 – 14 VDC Polarity Protected
CURRENT CONSUMPTION	Transmitter: 140 mA @ 12 VDC Receiver: 350 mA @ 12 VDC
DIMENSIONS	8.25" x 8.25" x 4.25" each
MOUNTING BRACKETS	Included – Maximum 2" Diameter Mast Mount
WEIGHT	2.0 kg or 4.4 lbs each
FCC / IC APPROVED	Yes

**KIT INCLUDES**

- ALL WEATHER TRANSMITTER
- ALL WEATHER RECEIVER
- OPERATING INSTRUCTIONS
- TWO 12VDC POWER SUPPLIES
- MOUNTING BRACKETS AND HARDWARE
- ONE YEAR LIMITED WARRANTY

2.4GHz

Ideal for short to long range transmission when running cable is not possible, economical or convenient. These transmitters are mounted in a metal case for improved EMI / RFI shielding and includes a rubber duck antenna to ensure a robust RF signal. With four user selectable frequencies, this system is perfect for applications ranging from surveillance to remote monitoring.

### ADVANTAGES

- Eliminates the need for cabling or trenching
- Sends video from locations normally not possible, convenient or economical with cable
- Ideal for portable, temporary and covert surveillance or monitoring applications
- Four user selectable channels
- One Year Limited Warranty

### SPECIFICATIONS

MODELS	# TC-2445	# TC-2485	# TC-2495
OPERATING FREQUENCY	2.4108GHz – 2.4728GHz; 4 User Selectable Channels		
RADIATED POWER	50mV/m @ 3m	100mW	900mW
RANGE (LINE-OF-SIGHT)	1,000 Feet	2,000 Feet	One Mile
ANTENNA TYPE	Omnidirectional Rubber Duck		
VIDEO FORMAT	NTSC or PAL		
VIDEO CONNECTOR	BNC Male @ 75 Ohms 1 Volt P-P

TEMPERATURE RANGE	-22°F to +150°F		
POWER SUPPLY INCLUDED	12 VDC Polarity Protected		
CURRENT CONSUMPTION: TX	140mA	200 mA	390 mA
CURRENT CONSUMPTION: RX	350 mA @ 12 VDC		
DIMENSIONS	2.30" x 5.25" x 1.25" each		
WEIGHT	213g or 7.5 oz each		
FCC / IC APPROVED	YES	PART 90 AVAILABLE	

### KITS INCLUDE

- VIDEO TRANSMITTER
- VIDEO RECEIVER
- TWO RUBBER DUCK ANTENNAS
- TWO 12VDC POWER SUPPLIES
- ONE YEAR LIMITED WARRANTY

4 Channels

The T-2490 features an incredible 900mW of RF power, packed into the smallest design ever created for 2.4GHz video transmission. Weighing just over 45g (antenna excluded), this little powerhouse was intended for long-range transmission or punching through multiple walls. This unit is perfectly suited for building into custom mini camera housings and applications where only battery use is possible.

### ADVANTAGES

- Easy to use – "Plug & Play"
- Four user selectable channels
- Eliminates the need for cabling or trenching
- Powerful 900mW of RF
- Smallest configuration, only 45g
- Ideal for law enforcement, military, RC robots and RC plane applications

### SPECIFICATIONS

OPERATING FREQUENCY	2.4108GHz – 2.4728GHz; 4 User Selectable Channels
RADIATED POWER	900mW
RANGE (LINE-OF-SIGHT)	Up to 1 Mile
VIDEO FORMAT	NTSC or PAL
ANTENNA TYPE	2.13" x 5.25" Directional Patch – SMA Male Connector
VIDEO IMPEDANCE & LEVEL	75 Ohms @ 1 Volt P-P
AUDIO IMPEDANCE & LEVEL	600 Ohms @ 1 Volt P-P
TEMPERATURE RANGE	-22°F to +140°F
POWER SUPPLY INCLUDED	12 VDC Polarity Protected
CURRENT CONSUMPTION	390 mA @ 9 VDC
DIMENSIONS	1.0" x 2.5" x 0.25" ( not including antenna)
WEIGHT	45g or 1.6 oz ( not including antenna)
FCC / IC APPROVED	PART 90 AVAILABLE

### KIT INCLUDES

- SUPER POWER TRANSMITTER
- DIRECTIONAL PATCH ANTENNA
- 7.5 VDC POWER SUPPLY
- OPERATING INSTRUCTIONS
- ONE YEAR LIMITED WARRANTY
- VIDEO RECEIVER NOT INCLUDED

*Super Power*

This Multi-Channel series is the smallest and most versatile transmitter of its kind on the market today. With standard features including four user selectable channels, audio line level, the multi-channel series is perfectly suited for building into custom mini camera housings and in applications where only battery use is possible.

#### **ADVANTAGES**

- Easy to use – "Plug & Play"
- Four user selectable channels
- Standard features include audio line level input
- Includes video receiver and power supplies
- Eliminates the need for cabling or trenching
- Outperforms 900MHz for use with color or high resolution cameras
- Video Transmitter and Receiver included
- One Year Limited Warranty

**DT-2400**

The 2.4GHz DT-2400 digital spread spectrum data radios transmit license free wireless PTZ controls and other data sources **up to 3 miles** where trenching cable may not be possible, convenient or economical. Designed to have the greatest compatibility with all major pan-tilt-zoom camera manufacturers, the DT-900 configuration software allows the user to easily configure the system to minimize installation time and maximize results for the most demanding of application needs.

**ADVANTAGES**

- Rugged IP-67 enclosures
- License free range up to 3 miles, up to 10 miles with optional high gain antenna
- Programming software included
- Compatible with most PTZ camera systems and other data sources
- RS-422, RS-485, or RS-232 compatible
- Excellent penetration through walls
- Point-to-Point or Point to Multi-Point capable
- Data outputs from sensors, gauges or alarm
- Gates, parking lots, highways, warehouses, refineries, power stations, or other commercial and industrial scenario systems
- One year limited warranty

The 900MHz Mini-SpyCam wireless **COLOR** camera series sends Real-Time, high resolution, color video signals in applications ranging from covert surveillance to remote monitoring.

### ADVANTAGES

- Size: only 1.37" x 2.1" x 0.65"
- Eliminates the need for cabling or trenching
- Perfect for office, warehouse, nursery and more
- Outperforms 2.4GHz for penetration through walls, mobile and bodycam applications
- One Year Limited Warranty

### SPECIFICATIONS

MODEL	# MSC-906CR	# MSC-916CR
FIXED FREQUENCY	906MHz	916MHz
RADIATED POWER	50mW / m @ 3m	
RANGE (LINE-OF-SIGHT)	Up to 1,000 Feet ( 400 Feet Indoors )	
ANTENNA TYPE	Fixed Omnidirectional	
VIDEO FORMAT	NTSC	
COLOR CMOS CAMERA	3.7mm Auto Iris 2 Lux	
RESOLUTION	380 Lines ( H ) x 350 Lines ( V )	
TEMPERATURE RANGE	-22°F to +140°F	
POWER SUPPLY INCLUDED	9 – 14 VDC Polarity Protected	
CURRENT CONSUMPTION	75 mA @ 12VDC	
DIMENSIONS	1.37" x 2.1" x 0.65"	
WEIGHT	23g or 0.8 oz	
FCC / IC APPROVED	Yes	

**Wireless Color Camera**

### KIT INCLUDES

- WIRELESS COLOR CAMERA
- WIRELESS RECEIVER
- UNIVERSAL MOUNTING BRACKET
- AA BATTERY PACK HOLDER
- RUBBER DUCK ANTENNA
- TWO 12 VDC POWER SUPPLY
- OPERATING INSTRUCTIONS

Ideal choice for building into custom mini camera housings, these tiny transmitters are perfectly suited for applications where only a battery is possible. Choose one of two fixed frequencies for applications ranging from surveillance to remote monitoring.

### ADVANTAGES

- Ideal for portable, temporary and covert surveillance or monitoring applications
- Low current consumption for convenient battery operation
- Custom configure your own wireless video camera
- Eliminates the need for cabling or trenching
- One Year Limited Warranty

### SPECIFICATIONS

MODEL	# T-906	# T-916
FIXED FREQUENCY	906MHz	916MHz
RADIATED POWER	50 mV / m @ 3m	
RANGE (LINE-OF-SIGHT)	Up to 1,000 Feet	
ANTENNA TYPE	Fixed Omnidirectional	
VIDEO FORMAT	NTSC	
VIDEO CONNECTOR	RCA Male @ 75 Ohms 1V P-P	
AUDIO CONNECTOR	NONE	
TEMPERATURE RANGE	-22°F to +140°F	
POWER SUPPLY INCLUDED	9 – 14 VDC Polarity Protected	
CURRENT CONSUMPTION	50 mA @ 12VDC	
DIMENSIONS	0.75" x 0.6" x 0.2"	
WEIGHT	12g or 0.4 oz	
FCC/IC APPROVED	YES	

### KIT INCLUDES

- MINI TRANSMITTER
- 12 VDC POWER SUPPLY
- ONE YEAR LIMITED WARRANTY
- REQUIRES 900MHz RECEIVER – NOT INCLUDED

**Low Current Consumption**

These transmitters are perfectly suited for applications where only a battery is possible. Connecting video and power source is easy with convenient terminal strip input. Choose one of two fixed frequencies for applications ranging from surveillance to remote monitoring.

### ADVANTAGES

- Ideal for portable, temporary and covert surveillance or monitoring applications
- Low current consumption for convenient battery operation
- Custom configure your own wireless video camera
- Easy connect terminal strip for quick setup
- One Year Limited Warranty

- 12 VDC POWER SUPPLY
- RUBBER DUCK ANTENNA
- ONE YEAR LIMITED WARRANTY
- **REQUIRES 900MHz RECEIVER – NOT INCLUDED**

**Punches Through Concrete**

The TC-900 **SUPER POWER** series was made with law enforcement in mind. Capable of punching through an entire building, this "little power house" was intended for transmission through multiple walls. Choose one of two fixed frequencies for applications ranging from surveillance to remote monitoring.

### ADVANTAGES

- Easy to use – "Plug & Play"
- **750mW RF power** Punches through concrete or cinder block walls
- Outperforms 2.4GHz for wall penetration, mobile and bodycam applications
- One Year Limited Warranty

- ONE YEAR LIMITED WARRANTY
- **REQUIRES 900MHz RECEIVER – NOT INCLUDED**

Range up to 5,700 Feet

## CCR-900

The CCR-900 video receiver offers rock-solid frequency stability by utilizing a microprocessor controlled PPL tuning system. Use this receiver for all AM band 900MHz transmitters and enjoy trouble free operation without re-tuning or adjusting in any environment.

### ADVANTAGES

- 902 – 928MHz user selectable
- Convenient signal strength indicator
- Power On/Off Switch with LED indicator
- Convenient Terminal Block connectors for various power supply input options
- One Year Limited Warranty

ANTENNA CONNECTOR	TNC Female
VIDEO FORMAT	NTSC
VIDEO CONNECTOR	BNC Female @ 75 Ohms 1 Volt P-P
AUDIO CONNECTOR	RCA Female @ 600 Ohms 1 Volt P-P
TEMPERATURE RANGE	-20°F to +150°F
POWER SUPPLY INCLUDED	Terminal Block Input 6.4 – 24 VDC – Polarity Protected
CURRENT CONSUMPTION	200mA @ 6.4 VDC
DIMENSIONS	5.37" x 4.25" x 1.44"
WEIGHT	416g or 14.7 oz
FCC / IC APPROVED	YES

### KIT INCLUDES

- VIDEO RECEIVER
- RUBBER DUCK ANTENNA
- 12 VDC POWER SUPPLY
- ONE YEAR LIMITED WARRANTY

Range 902MHz – 928MHz

Designed to connect to your VideoComm Technologies 900MHz video/audio receiver, this series of specialty antennas allows you to match the antenna to your specific application needs. Manufactured from the highest quality materials to ensure superior electrical performance, mechanical durability and longevity from the harsh elements of weather. Meet your application demands by choosing this antenna to increase your signal strength and improve video quality.

## ADVANTAGES

- Improve video quality and signal strength
- Increase transmission range
- All-Weather construction
- All Antennas – 50 Ohm Impedance
- Mounting brackets and hardware included
- "Plug & Play" and ready to install
- Two Year Limited Warranty

### 5 dB MAGNETIC MOUNT OMNIDIRECTIONAL PORTABLE WHIP ANTENNA

- Ideal for portable and temporary, vehicle or mobile equipment applications
- Heavy Duty 3" Magnet – 54lbs. pull strength
- Twin enclosed coil reduces wind noise
- Minimum ground plane required – 8" diameter
- Dimensions: 3.0" x 16.5"
- Includes 6 feet low loss cable and connector

### 8 dB HIGH GAIN DIRECTIONAL PATCH ANTENNA

- Ideal for portable and permanent, indoor and outdoor equipment applications
- Universal brackets for wall mount or 2" diameter pole mount
- Excellent front – back ratio VSWR 1.5:1 or less
- Low Profile Dimensions: 9.4" (L) x 6.75" (W) x 1.1" (D)
- Includes 6 feet shielded low loss cable and connectors

### 11 dB HIGH GAIN DIRECTIONAL YAGI ANTENNA

- Ideal for portable and permanent, indoor and outdoor equipment applications
- Durable aluminum all-weather construction
- Wind Load rating – 100 mph
- Mounting brackets / hardware included – up to 2" diameter
- Includes 6 feet dual shielded low loss cable and connectors

MODEL NUMBER	DIMENSIONS	GAIN
YAGI-9111	8" x 35" Long	11 dB Gain

**TX-440**

The new TX-440 wireless transmitter is ideal for punching through walls or in a mobile video application. Featuring 8 user selectable channels, this product is ideal for mobile wireless applications including beta-cam operators and hobbyists.

**ADVANTAGES**

- Easy to use – "Plug & Play"
- Transmitter Size: 2.6" x 1.1" x 2.0"
- Punches through concrete or cinder block walls
- Eliminates the need for cabling or trenching
- Excellent for mobile wireless applications
- 8 user selectable channels
- One Year Limited Warranty

**SPECIFICATIONS**

OPERATING FREQUENCY	8 user selectable	
	Cable Channels:	58 – 59 – 60 – 61
	Off Air Channels:	14 – 15 – 16 – 17
RADIATED POWER	100 mW	
RANGE (LINE-OF-SIGHT)	Up to 1,000 Feet	
ANTENNA TYPE	Omnidirectional Rubber Duck	
VIDEO FORMAT	NTSC	
VIDEO CONNECTOR	RCA Female @ 75 Ohms 1 Volt P-P	
AUDIO CONNECTOR	RCA Female @ 600 Ohms 1 Volt P-P	
TEMPERATURE RANGE	-22°F to +140°F	
POWER SUPPLY INCLUDED	9 – 14 VDC Polarity Protected	
CURRENT CONSUMPTION	200 mA @ 12 VDC	
DIMENSIONS	2.6" x 1.1" x 2.0"	
WEIGHT	144g or 5.1 oz	
FCC/IC APPROVED	N / A	

**KIT INCLUDES**

- VIDEO TRANSMITTER
- RUBBER DUCK ANTENNA
- 12 VDC POWER SUPPLY
- ONE YEAR LIMITED WARRANTY

**8 Channels**

The RX-440 video receiver offers rock-solid frequency stability by utilizing a microprocessor PLL controlled tuning system. Use this receiver with its matching transmitter, and enjoy trouble free operation without re-tuning or adjusting in any environment.

### ADVANTAGES

- Easy to use – "Plug & Play"
- Receiver Size: 3.1" x 1.1" x 2.1"
- Punches through concrete or cinder block walls
- Eliminates the need for cabling or trenching
- 8 user selectable channels
- One Year Limited Warranty

**8 Channels**

### SPECIFICATIONS

OPERATING FREQUENCY	8 user selectable	
	Cable Channels:	58 – 59 – 60 – 61
	Off Air Channels:	14 – 15 – 16 – 17
SENSITIVITY	-84 dBm	
ANTENNA TYPE	Omnidirectional Rubber Duck	
VIDEO FORMAT	NTSC	
VIDEO CONNECTOR	RCA Female @ 75 Ohms 1 Volt P-P	
AUDIO CONNECTOR	RCA Female @ 600 Ohms 1 Volt P-P	
TEMPERATURE RANGE	-22°F to +140°F	
POWER SUPPLY INCLUDED	9 – 14 VDC Polarity Protected	
CURRENT CONSUMPTION	200 mA @ 12 VDC	
DIMENSIONS	3.1" x 1.1" x 2.1"	
WEIGHT	144g or 5.1 oz	
FCC/IC APPROVED	N / A	

### KIT INCLUDES

- VIDEO RECEIVER
- RUBBER DUCK ANTENNA
- 12 VDC POWER SUPPLY
- ONE YEAR LIMITED WARRANTY

## UNIVERSAL WALL MOUNTING BRACKET

- Low profile design
- Heavy duty 1.5" galvanized steel tube for greater strength
- Convenient 90° tilt adjustment
- Durable 150lb load rating
- Ideal for mounting all types of wireless video systems and antennas
- UVM-150: 6" wide mounting flange – 16" length mounting arm
- UVM-200: 6" wide mounting flange – 25" length mounting arm

**UVM-150**

## AUDIO / VIDEO GRABBER / CONVERTER

- Converts analog video / audio signal into Real-Time MPEG recording
- High Speed USB vers. 2.0
- Use your Laptop or PC to record
- Brightness, Contrast, Hue, Saturation, Sharpness control
- Record MPEG video format up to 720 x 480 @ 30fps
- Includes CD-ROM with video editing software
- Minimum requirements:
  - USB 2.0 equipped Pentium-4 processor
  - 1 Gig or above computer
  - Min RAM 128MB / Windows 2000 / XP / Sound card

**TV-2USB**

## RF CABLES AND JUMPER CABLES

- High quality connectors to ensure superior electrical connections
- 50 Ohms impedance
- Various low loss microwave cables
- Various types of jumper cables and connectors to meet your application requirements
- Contact VideoComm Technologies sales representative or visit [www.VideoTransmitters.com](http://www.VideoTransmitters.com) for more details

**LMR-206**

## POWER SUPPLIES

- Various UL listed Class 2 power supplies ranging from 6 – 15 VDC
- Various AC to DC converter boards
- Various power jumper cables and connectors
- Contact VideoComm Technologies sales representative or visit [www.VideoTransmitters.com](http://www.VideoTransmitters.com) for more details

**Power Supplies**

The wireless Solar Power System is a stand-alone solar photovoltaic power generator designed to supply a reliable source of electricity for any electronic device when conventional power sources are not available. When used in tandem with wireless transmitters, the Solar Power System creates a fully autonomous wireless video surveillance system for remote video monitoring.

**Wireless Solar panel**

### **ADVANTAGES**

- Perfect for permanent, temporary, or portable video surveillance installations
- Ideal for remote applications including: Commercial, Industrial, and Law Enforcement
- Easy to set up and install
- All weather light weight aluminum design
- Can deliver 5 days of continuous power without a recharge ( batteries not included )
- 12 Volt DC to 24 Volt AC option, with SPI-40 power inverter

### **SPECIFICATIONS**

REGULATED SYSTEM OUTPUT VOLTAGE	14.1 VDC
MAXIMUM SYSTEM OUTPUT	6 amps
OVERLOAD CAPACITY	7.5 amps for 5 minutes
TEMPERATURE RANGE	-40°F to +140°F
BATTERY CHARGE TEMPERATURE COMPENSATION	YES – "Smart Charge"
BATTERY CAPACITY	1260 watt / hours or 105 ampere-hours
SOLAR PANEL – DIMENSIONS	48" x 13" per panel ( Max. 5 panels )
SOLAR PANEL – WEIGHT	14 lbs per panel
MASTER CONTROL UNIT – DIMENSIONS	16" x 13.5" x 9.5"
MASTER CONTROL UNIT & BRACKET – WEIGHT	25 lbs. ( not including battery )

# WIRELESS VIDEO APPLICATIONS

## RETAIL

- **LOSS PREVENTION** – Inventory control and cash monitoring
- **VANDALISM** – Building and elevator monitoring
- **GAS STATION** – Self serve and car wash monitoring
- **SECURITY** – Restricted zone monitoring, safe rooms and locked merchandise
- **SHOPPING MALLS** – Theft, vandalism and parking lot monitoring
- **EMPLOYEE SUPERVISION** – Performance monitoring

## INDUSTRIAL

- **EQUIPMENT MONITORING** – Back up cameras, cranes and loaders
- **ASSEMBLY LINES** – Process control monitoring, quality control inspection
- **DANGEROUS AREA MONITORING** – Chemical hazard and mine shafts
- **REMOTE GAS, OIL RIG AND PIPE LINE MONITORING**
- **CONSTRUCTION SITES** – Portable visible link monitoring and remote situations
- **PIPE INSPECTION** – Ventilation shafts
- **REMOTE TRAFFIC CONTROL** – Lights and signals

## COMMERCIAL

- **PROPERTY MANAGEMENT** – Parking lot and building surveillance
- **INSURANCE INDUSTRIES** – Fraud prevention and claims investigations
- **PRIVATE INVESTIGATION** – Monitoring and visual identification
- **FIRE** – Thermal Imaging
- **LAW ENFORCEMENT** – Investigations and body-cam surveillance
- **HOSPITALS** – Alzheimer patients, extendicare homes and pharmacies
- **MEDICAL** – Surveillance of biohazards, equipment and patient monitoring
- **SCHOOLS** – Pick up and drop off zone monitoring, crime prevention
- **TRANSPORT** – Road and traffic control monitoring, airports and railways
- **GATED COMMUNITY** – Access control monitoring
- **DAYCARE** – Child activity and monitoring

## OTHER

- **HOBBYIST** – Radio controlled cars, boats, planes, helicopters, rockets, and robots
- **BROADCAST TV** – Steadycam
- **GOLF COURSE** – Hole in one monitoring
- **GOVERNMENT & MILITARY** – Facilities, Embassies and Prisons
- **NATURE ENTHUSIASTS** – Bird or wildlife monitoring
- **SCIENTIFIC** – Remote monitoring of active volcano
- **LIVESTOCK MONITORING** – Calving
- **HOME THEATRE** – Home automation

***We have solutions on-line***

**www.VideoTransmitters.com**

- **GET MORE**  
detailed and up-to-date specification sheets  
instructions, technical notes and software
- **GET A PRICE QUOTE**  
complete the on-line request for quotation form,  
and we'll send you a detailed quotation  
within 48-hours
- **BATTERY CONSUMPTION CALCULATOR**  
find out how many hours your battery will last.  
Or what size battery you will need to make it last
- **WIRELESS APPLICATION IDEAS**  
including some with technical write-ups  
and detailed schematic drawings
- **GLOSSARY AND FREQUENTLY ASKED QUESTIONS**  
to improve your understanding of wireless  
transmitters
- **TECHNICAL NOTES**  
review postings of helpful installation tips, drawings,  
charts or recent discoveries
- **COMPLETE THE HELP REQUEST FORM**  
and we'll email you specs, photos, drawings and  
installation tips
- **KEEP UP TO DATE**  
with our most recent product releases, upcoming  
events, press releases and more
- **FIND**  
an authorized distributor or re-seller near you

Visit our website to find the wireless  
technical support you've been looking for.
